Zebra Wall Blinds

*Block the hot sun and glare,
and gives you added privacy!*

Our Fashionable Zebra Wall Blinds Give You Added Privacy & Weather Protection!

Added Privacy When & Where You Need It Most!

Our Zebra Wall Blinds really are the perfect privacy solution. Whether you want to screen your hot tub or just enjoy your outdoors without the neighbors looking in...our Zebra Wall Blinds are for you! You can lower all the shades for complete privacy...or just lower individual shades where you need privacy the most. The choice is yours!

Plus...Extra Protection From The Hot Sun

In sun facing rooms, these beautiful blinds dramatically reduce heat transfer from outdoors, blocking the sun's heat & glare. They also provide added protection from the sun's harmful UV rays while still allowing soft light to filter through!

Our exclusive Zebra Blinds are a beautiful addition to your SunPorch or ShadePorch!

Our Innovative Zebra Stripe Design!

Our Zebra Stripe design is as beautiful as it is functional. The alternating solid and screened stripes give the shades a unique designer look while offering you more choice in using the shades. Choose all solid stripes for maximum privacy and sun protection...or easily switch to alternating solid and screen stripes for a more open airy feeling.

Each Set Of Blinds is Individually Adjustable!

Each Zebra Wall Blind is also individually adjustable from fully open to fully closed or anywhere in between...giving you even greater control over the climate and your personal comfort in the SunPorch or ShadePorch.

Available Exclusively From SunPorch!

Our Zebra Wall Blinds are truly unique and available exclusively from SunPorch! So if you need added privacy & weather protection for your new SunPorch or ShadePorch, Zebra Wall Blinds are an effective and beautiful solution!

Designed & manufactured exclusively for SunPorch!

- Inside mount & operates independently of the Easy-Slide Windows.
- Fully concealed in decorative aluminum headrail.
- Easy-to-use clutch lock with nylon chain.
- Fully adjustable to any height for partial or full privacy.
- Provides 50% light when open, 15% light when closed.
- Allows air circulation when open.
- Can be retrofitted at any time.

Our unique zebra design uses alternating solid & screen panels allowing you to choose either all solid panels for maximum privacy & weather protection...or choose the solid and screen "Zebra" combination

for a more open & airy feeling.

Choose Your Level of Privacy & Weather Protection!

When the light is soft & beautiful keep the shades fully open for maximum light & air.

Partially closed shades give you sun protection just where you need it most. Keep the Zebra screens open for improved air circulation.

Of course, when that hot summer sun is really blazing use the Solid Stripe combination to create a solid shade that gives you total protection.

With the shades fully closed & the Zebra screened stripes open you'll enjoy greater privacy & weather protection while maintaining good air flow & an open, airy feeling.

Finally, with shades fully down and stripes fully closed you'll have complete privacy and weather protection from the hot summer sun.

Zebra Wall Blinds Specifications

 - Back Layer
 - Screen stripe is 1-3/4" mesh
 - Solid stripe is 2-3/4" light grey
- **Aluminum Bottom Rail**
Heavyweight with integrated roller to prevent flapping.

Skylight Shades

An easy and effective way to control the climate in your SunPorch!

Skylight Shades Keep Your SunPorch Cool & Shaded From the Hot Sun!

Block 100% of the Sun's Light!

If your deck or patio is exposed to the mid-day sun you know just how unbearable the summer heat can be! That's why we designed our SunPorch Skylight Shades to block 100% of the sun's light. With our skylight shades you'll never have to run for cover again! Whenever the hot sun starts beating down just pull the shades closed & enjoy your deck or patio in cool, breezy comfort!

The Skylight Shades are easily opened or closed using the convenient shade pole provided.

Create A Shady Retreat... In Just Seconds!

With SunPorch Skylight Shades you really can create your own shady oasis! No wrestling with cumbersome awnings that are hard to open & close. With Skylight Shades you can enjoy the beautiful, soft morning sun light to its fullest... then easily close the shades for complete protection from the mid-day sun!

Put Shade Exactly Where You Need It!

Each 3' x 3' Skylight Shade is completely adjustable from fully open to fully closed, and anywhere in between. This allows you to place shade exactly where you want and need it most.

Keep Your SunPorch Cozy in Cool Weather!

Even long after the hot summer sun is gone, you'll still be enjoying the benefit of your Skylight Shades. When the weather turns cooler keep the shades open during the day to let the sun's natural light and warmth pour in...then in the evening, when it's cooler, close the Skylight Shades to keep your SunPorch cozy by cutting down on heat loss through the roof.

Designed & manufactured exclusively for SunPorch!

- The shades are made of heavyweight white PET with aluminum inlay for blackout effect.
- They are waterproof, weather proof and tear resistant.
- Each shade is 3' x 3' and installs below the roof glazing.
- Pre-drilled holes in all 4 corners for quick and easy bracket & shade mounting.
- Stainless steel and nylon cables with adjustable tension to prevent sagging.
- Easily retrofitted at any time.

In warmer weather, the solid shade blocks the sun's light and heat.

In cool weather the shade cuts heat loss by creating an insulated air space that reflects heat inward.

From full sun to full shade or anywhere in between.

Solid Shades Block 100% Of The Sun's Light.

During the heat of summer the solid shades provide maximum protection blocking 100% of the sun's light and harmful UV Rays. Plus, they help keep adjacent rooms cooler.

Open Shades Partially To Place Shade Exactly You Need It Most.

Each Skylight Shade adjusts from fully closed to fully open or anywhere in between. This allows you to adjust each shade individually to place shade just where you need it.

Shades Fully Open For Maximum Sunlight.

With shades fully open you'll enjoy maximum sunlight and capture solar energy to keep your SunPorch warm and cozy.

Easy-Fit Modular Floor System

The best sunroom floor that we've ever tested!

Made In The USA.

A Beautiful Addition To Your SunPorch or ShadePorch.

Add the finishing touch to your new sunroom with our unique and attractive Floor Tile System.

A Snap To Install... With No Glue!

The floor's unique snap together design makes installation easy and fast, using simple tools and...no messy adhesives! There's no hammering...no nailing & easy to trim with a utility knife!

Polypropylene base with individual legs support each tile to provide strength & airflow.

Stays Warm In Winter & Cool in Summer!

The floor's raised tile design provides a very effective layer of insulation. That means the floor will stay warm all winter and cool during the summer months.

Breathes Freely & Quick To Dry!

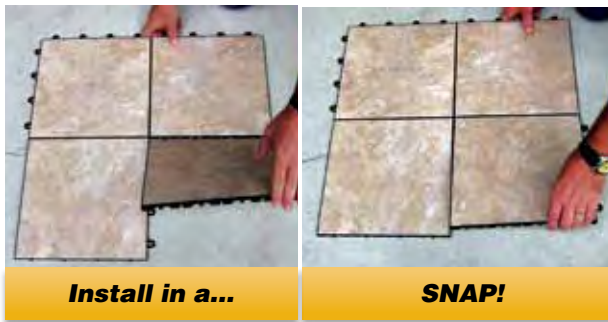

Unlike ordinary tiles that are frequently damp and take forever to dry out... the Porch Floor drains instantly & dries quickly. The secret is elevation! Each Porch Floor tile is supported by over 300 super strong legs that raise the tiles 5/8" above the sub surface. This allows the tiles to breathe freely which promotes quick drying and instant drainage.

Easy-Fit Modular Tiles Install...In a SNAP!

**No
Glue
Required!**

Install in a...

SNAP!

Interlocking modular tiles snap together easily. No special tools! No messy glue! Trim to fit with a simple utility knife

Choose The Look From A Selection of Styles!

The Easy-Fit floor tiles have a Polypropylene base with a vinyl or carpet insert. You can choose from

a variety of finishes including ceramic look, carpet, or wood look.

Durable, Long Lasting & Maintenance Free.

The Easy-Fit Porch Floor is extremely tough, durable and long lasting! The tiles are mildew, mold and stain resistant and have been specially treated to reduce fading due to the sun's UV rays and covered by a 10-Year Limited Warranty.

Installs in less than 30 minutes!

1

Start at the outer edge...

with a full tile, loops towards your house & the opposite edge of the deck.

2

Simply snap-on added tiles...

moving outward covering the length and width of your deck or patio.

3

Finally, trim for a perfect fit...

tiles are designed for easy trimming & a custom fit.

Hideaway Screens

*There when you need them...
retract them when you don't!*

Our exclusive Hideaway Screens are there when you need them for air-flow & insect protection...then retract to give you a perfect, crystal clear view when you don't.

Maximum air-flow & insect protection.

During the warmer months they can be kept down to provide maximum air-flow through your SunPorch and 100% insect protection. In fact, because our Hideaway Screens have a brush seal track they are actually more insect proof than conventional removable screens.

An unobstructed crystal clear view

When the weather turns cooler and the windows are closed why be stuck staring through light dimming screens. With our Hideaway Screens you don't have to! Simply open the screens and enjoy the spectacular floor to ceiling windows completely unobstructed!

More natural light and solar heat.

With the Hideaway Screens fully open you'll also allow maximum natural light to flow into the sunroom and into your home. This is a particularly important benefit during the cold winter months when you want to keep your home and your spirits brighter. And you'll get added solar heat gain.

Easy to open & close.

The Hideaway Screens are easy to open & close from both the inside and outside. To open, just grasp the easy-grip handle with just one hand and pull the screen straight down until it clicks solidly into place. To close, simply reverse the procedure.

Hideaway Screens Up or Down From the Inside or Outside!

Designed & manufactured exclusively for SunPorch!

- **Weather Protected Aluminum Cover**
Each Hideaway Screen retracts into its' own aluminum protective cover.
- **Fiberglass Mesh Screens**
Are densely woven for strength and durability.
- **Easy-Pull Aluminum Handle**
For effortless smooth glide operation from inside or outside.
- **Brush Seal Side Rails**
Prevent screen flap and insect infiltration
- **Maintenance Free**
 - Stainless Steel rust-free hardware
 - Molded nylon parts for long life
 - Aluminum construction with a baked enamel finish
- **Easily Retrofitted At Any Time.**

Note: Not available for door.

*Tired of wet screens blocking your view & light when its raining?
With hideaway screens you'll never look thru a wet screen again!*

Privacy Sunscreen Film Lets You See Out ...While Nosy Neighbors Can't See In!

Use privacy sunscreen to shade the gables from harsh summer sun.

Privacy sunscreen film makes an attractive addition to your sun-room while screening out nosy neighbors and harsh sunlight.

You Can See Out... But They Can't See In!

Now you can create your own oasis of privacy without losing natural light or feeling shut in. The privacy film appears opaque from the outside and cannot be seen through...but step inside and the translucent film almost disappears...allowing you to see out while others can't see in!

Privacy Sunscreen Film Blocks Harsh Sunlight!

Our Privacy Sunscreen Film is also the perfect way to add sun protection. If you want to shade the gables, or have a hi-rise with transom panels, the privacy sunscreen is just right for you! It allows for a 45% diffused light transmission... keeping the harsh sun out while allow

Place It Just Where You Need It!

In most instances where privacy & light is a problem, it is localized on just one or more sides of the sun-room. Place the film only where you need it...and not where you don't! Fits any size window or locations and allow for full operation of the Easy-Slide windows.

Easy To Trim & Install!

SunPorch Privacy Film comes in stock sized a 3' x 3' squares for easy installation. It mounts to the exterior of the glazing on the outside. To install, just peel back from the liner and unroll the film so it adheres to the window & trim to size. Its just like working with contact paper.

Stationary Utility Panel Available For Special Projects

Can be located in either the upper or lower sash of an Easy-Slide wall bay or door.

Shown here to create a convenient pet door. (purchase at your local pet supply)

A non-operable twin wall utility panel is available for special projects. It replaces the Easy-Slide wall bay & can be located in the upper or lower sash. The utility panel is designed to be cut onsite for uses such as pet doors, exhaust fans, heaters, ducts, etc. The remaining sash is removable & fully screened.
