SunPorch & ShadePorch

Start enjoying your outdoors more!

For maximum natural day lighting choose our "classic" translucent roof SunPorch!

For maximum shade & sun protection... choose the NEW solid roof ShadePorch!

***“Now...the choice is yours!
The ‘classic’ translucent roof
SunPorch...or the all NEW
solid roof ShadePorch!”***

Dear Homeowner,

At SunPorch we are dedicated to continually improving our sunroom product line to help you

enjoy your outdoors more where ever you may live! That’s why we are proud to introduce our newest sunroom, the All NEW solid roof ShadePorch!

With a 3" insulated ENERGY STAR® roof, the ShadePorch provides maximum shade and protection from the heat of the sun. If you live in a hot, sunny climate...or have a southern or western exposure with excessive sunlight and heat...The ShadePorch is the perfect choice for you.

Of course, if you live in a cooler climate or your deck or patio is located in a shady area with little natural light you may want to choose our Classic SunPorch. The SunPorch features a light emitting translucent roof that will keep your sunroom filled with maximum natural daylight in every season of the year! Plus in the cooler months the SunPorch acts as a passive solar collector that will help heat your home and reduce energy costs.

I hope you enjoy all of the information I have enclosed on both the ShadePorch & SunPorch. If you have any questions at all please don’t hesitate to call. We look forward to hearing from you.

Sincerely,

Dean Schwartz

Dean Schwartz,

General Manager, SunPorch Structures

Now...extend your outdoor enjoyment

ment by weeks, even months... every year!

Translucent Roof SunPorch!

Solid Roof ShadePorch!

Turn Your Deck or Patio Into a Beautiful Outdoor Room!

AFTER

Mounts On Your Existing Deck or Patio With...No Site Prep! No Permits! No Taxes!

With fully adjustable Easy-Slide windows and screens, SunPorch and ShadePorch adjusts quickly and easily to your comfort needs in every season.

Stays cool in summer & warm in winter.

SunPorch and ShadePorch are both heated and cooled naturally. During cool weather the sunroom enclosure acts as a passive solar structure that is heated by the sun. Then in warmer weather it quickly converts to a screenroom using Easy-Slide window screens to move cool air through the enclosure.

Adjust air-flow to your comfort instantly.

Easy-Slide windows with screens operate effortlessly... and allow you to adjust air-flow to your personal comfort instantly! With multiple settings each window can be adjusted from fully to partially open or fully closed...giving you complete control of air-flow and your comfort needs.

A complete ready-to-assemble kit.

The sunroom is delivered as a complete kit including roof, walls, windows, screens and a door. It is easy to assemble and can be installed in as little as a single weekend.

Start enjoying your outdoors more with SunPorch or ShadePorch!

Choose our **SunPorch with translucent roof** or... **ShadePorch with solid roof!**

SunPorch

The SunPorch has a translucent roof glazing that allows beautiful natural light to flow in.

ShadePorch

The ShadePorch is ideal for warmer climates with a solid ENERGY STAR® roof that provides maximum shade and protection from the hot sun.

Adding a SunPorch or ShadePorch to your home will give you more outdoor enjoyment than you ever dreamed possible! When it's warm, the sunroom/screenroom offers you a cool, breezy retreat. Then as the weather turns cooler you'll extend your outdoor enjoyment by converting the sunroom to a cozy and protected sunroom that uses FREE heat from the sun to keep warm in winter.

A beautiful addition to your home...inside & out.

SunPorch or ShadePorch makes a beautiful addition to any style home...both inside and out. Our modular design lets you fit it perfectly. In fact, many of our owners say the addition looks so beautiful that friends and neighbors were convinced it was custom designed.

The SunPorch or ShadePorch brings the outdoors in.

Having a new sunroom really is like bringing all of the beauty of the outdoors right into your home. With crystal clear floor to ceiling windows and BetterVue® screens, you'll have completely unobstructed views and that wonderful feeling of being outdoors in any weather.

Enjoy your outdoors more in every season!

With a new sunroom you'll extend your outdoor enjoyment throughout the year. Cool in summer and warm in winter, the sunroom will quickly become your family's special room in every season! No more running inside when sudden showers strike... or the weather turns cooler. No more swatting mosquitoes on a summer evening. Plus you'll never have to put your patio furniture away again!

Before

After

Go from a warm cozy sunroom...

To a breezy summer screenroom...In just seconds!

Both The SunPorch & ShadePorch Adjust to Your Comfort Needs in Every Season.

With fully adjustable floor to ceiling Easy-Slide windows & BetterVue® screens, both the SunPorch and ShadePorch adjust quickly and easily to your comfort needs in every season.

Stay cool in summer & warm in winter.

The SunPorch and ShadePorch are both heated and cooled naturally. During cool weather the fully glazed sunroom enclosure acts as a passive solar structure that is heated by the sun. Then in warmer weather it quickly converts to a screenroom using Easy-Slide window screens to move cool air through the enclosure.

Adjust air-flow to your comfort instantly.

The Easy-Slide windows with screens operate effortlessly...and allow you to adjust air-flow to your personal comfort instantly! With multiple settings, each window can be adjusted from fully to partially opened or fully closed...giving you complete control of air-flow and your comfort needs.

Easy-Slide windows with BetterVue screens adjust effortlessly.

The conversion from Sunroom to Screenroom really is incredibly easy...and instantaneous! Plus, you control the climate and can place ventilation exactly where you want it. By adjusting the Easy-Slide windows up or down you can direct air flow from either the top or bottom of the room. You can even remove all the windows for a full height screenroom and maximum ventilation.

Both The SunPorch & ShadePorch can help to heat your home & save energy.

During cooler months direct sunshine will heat the unit, typically raising its' temperature up to 50°F or more, above the outdoors. Even on days with little direct sun it will generally be 10°-20°F warmer than the outside. This heat gain can be used to help warm your home and reduce your heating costs. Plus, the SunPorch and ShadePorch provide added insulation to the outside wall of your home.

Choose SunPorch For Maximum Natural Light & Solar Heat Gain

The SunPorch's translucent, light emitting roof is designed to maximize the flow of 100% natural daylight into the SunPorch. This also serves to keep adjoining rooms much brighter.

Choose ShadePorch For Cool Shade & Sun Protection

With a 3" thick ENERGY STAR® heat reflecting roof the ShadePorch offers truly optimum shade and maximum protection from the hot summer sun. In doing so it also blocks heat and saves energy while keeping adjacent rooms cooler.

**SunPorch Adds Beauty &
Real Value to Any Style Home!**

The Perfect Complement to Any Style Home From Modern to Traditional.

More Living space means more value.

The addition of a SunPorch or ShadePorch not only expands your outdoor enjoyment it also adds real value to your home. By increasing the usable square footage of your home you are also increasing its' value making it an excellent home improvement investment.

Gives your home added curb appeal.

A SunPorch or ShadePorch addition is as beautiful from the outside as it is in. That's why we've been honored for design excellence 5X with the prestigious Design Award from the National Sunroom Association! That's also why many of our owners say that friends thought their new sunroom was a costly architectural addition.

Modular design fits any deck or patio.

Because we use a flexible modular design, both the SunPorch and the ShadePorch can be configured to fit almost any patio or deck. Use the enclosed Planning & Measuring Guide, (Book 3), to determine just the right size and configuration for your deck or patio.

SunPorch is featured in the 2009 "Porches and Patio Rooms" Book. Get your copy at Home Depot, Lowes & Amazon.com

Top Window Open

Bottom Window Open

Top & Bottom Windows Open

Windows Removed Full Height Screens

Floor to Ceiling Easy-Slide Windows With Screens Provide 30% More Ventilation!

Our Easy-Slide windows and BetterVue® screens are a design breakthrough! Both the top & bottom Easy-Slide windows effortlessly glide open to reveal the floor to ceiling permanently mounted screens. You can also remove the windows, to create a full height screenroom.

Go From Sunroom To Screenroom...In Seconds.

The Easy-Slide windows operate so easily and quickly that you really can go from sunroom to screenroom in just seconds! You'll be amazed at the transformation!

Adjust Air-flow

To Your Personal Comfort.

Our Easy-Slide windows have four individual settings for each window....allowing you to go from fully open to just partially open depending on how much air circulation you need to feel completely comfortable.

SunPorch or ShadePorch with maximum air-flow

Floor to ceiling Easy-Slide windows with screens provide maximum circulation in the room.

Patio Room with minimum air-flow

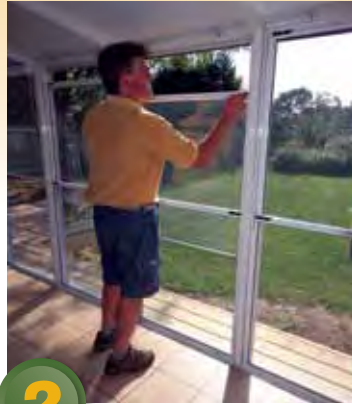

A Typical Patio Room has solid knee-walls, filler panels & smaller windows with reduced air circulation.

Easy-Slide Windows Adjust Effortlessly Both Top & Bottom

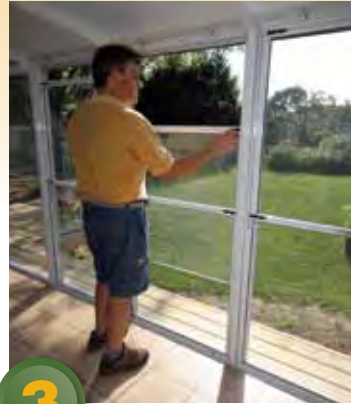

1

Both the top and bottom Easy-Slide windows unlatch easily.

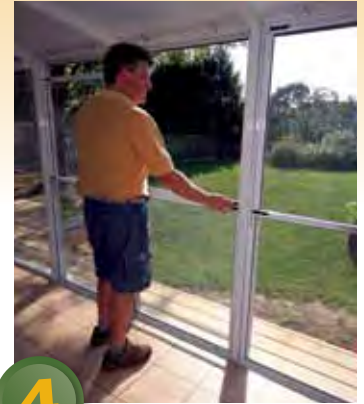

2

The windows then glide effortlessly in place.

3

The windows may be re-latched in a partially open position...

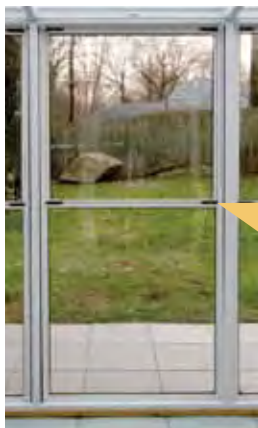

4

Or, re-latch the window in a fully open position to maximum air circulation.

SunPorch & ShadePorch Are Convertible Top & Bottom.

All of the windows have BetterVue® screens permanently mounted to the exterior. The Easy-Slide windows, both top and bottom, slide easily to open or close. You can even choose to remove all of the windows to create a full floor to ceiling screenroom during the hot summer months.

Easy to reach and use window latches

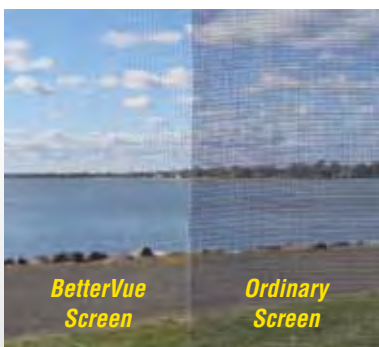

High Quality Designed & Tested Windows.

We use only the highest quality, made in the USA, hardware and glazing in our windows. The window frames are heavy duty aluminum with double wool pile weather stripping. The durable rigid glazing material is commercial grade and specially made for sunrooms. This strong, safe, lightweight acrylic material has exceptional durability, weatherability and impact resistance.

Our windows have been thoroughly tested and certified by the National Certified Testing Laboratories for structural water and air infiltration.

BetterVue Screens Have Greater Air-flow & Visibility!

- BetterVue® fiberglass screens provide superior air-flow when compared to ordinary screens.
- Improved air-flow keeps your sunroom cool & comfortable during the warm summer months.
- Premium BetterVue® screens allow more natural light to pass through.
- Maximum insect protection.
- Charcoal color reduces glare and reflection.

Duraplex Wall Glazing is Crystal Clear & 40 Times Stronger than Glass!

VIDEO

See Hammer Live!
www.sunporch.com

A Crystal Clear View That's Completely...Shatterproof!

Our rigid Duraplex® acrylic wall glazing is strong and totally shatter proof, make them better than glass!

40 times the impact strength of glass.

Our 1/8" Duraplex® wall glazing is practically indestructible and completely shatter proof. That makes our sunroom the super safe choice for children and pets.

A beautiful view that's 100% UV safe & guaranteed for 10 years!

Our Duraplex® glazing is crystal clear, scratch resistant and guaranteed to stay that way without yellowing or hazing for 10 years. They offer you a beautiful, worry free view as well as providing 100% protection from the sun's harmful UV rays.

1/4 the weight of ordinary glass.

Lightweight (just 7 lbs. each) combined with high impact resistance makes Duraplex® the perfect sunroom glazing material. By helping to keep the total weight down...without sacrificing strength...it enables the sunroom to be mounted right on your existing deck or patio.

Easy to clean.

A bucket of warm water, a tablespoon of your favorite dish soap and a handi-wipe cloth or sponge are all you need to clean the walls.

Duraplex® windows weigh just 7lbs. each and are easy to raise, lower or remove. (Shown holding 4 windows)

"Now we can see and enjoy our mountain views every season of the year!"

We used to have to peek out our tiny windows to see the mountains. What an amazing difference the SunPorch has made. Now we can step out and enjoy the incredible panoramic view of the mountains all year and through every season!"

— Mr. & Mrs Harry & Jane H., NH.

Strong Enough To Withstand Heavy Snow & Hurricane Force Winds!

The Structural Aluminum Frame is Strong, Lightweight & Maintenance Free!

The strength to handle heavy snow loads.

By using high quality lightweight components, the sunroom frame is able to achieve great strength without excess weight. That's why the structure easily passes or exceeds every industry measure of strength and durability for snow loads and wind loads and even meets California's rigorous earthquake code.

The light weight aluminum advantage.

The combination of great strength with light weight means that the structure can be mounted right on your existing deck or patio without costly site prep or foundation costs. Plus, because the aluminum structure is lightweight, it's easy to handle and assemble.

A lifetime finish in bronze or white.

The frame is available in either architectural white or bronze finishes. This high quality Valspar® enamel finish is permanently baked onto the metal for a lifetime of maintenance free service. Choose the color that best suits the trim of your home.

Concealed stainless steel fasteners.

Our hardware is made from the highest grade stainless steel and will never rust, corrode or become structurally compromised.

Heavy-Duty aluminum structural components and stainless steel fasteners combine to create a rust free, rot free, maintenance free frame!

"We purchased and installed a Series 915 SunPorch on our home several years ago. On August 29 we sustained a direct hit by hurricane Katrina with 130mph winds. The SunPorch survived the storm with NO damage."

— Mr. William G., Louisiana

Before Snap Covers

After Snap Covers

Unlike other sunrooms that leave unsightly bolting hardware exposed, the SunPorch provides attractive snap-covers.

Our Quality Engineering & Design Make Assembly Easy

A complete precision engineered ready-to-assemble kit!

The assembly manual for each size is detailed and easy to use with clear and complete illustrations and instructions.

The assembly manual is detailed and easy to use with clear and complete step-by-step instructions and illustrations.

Built right here at our own factory in Louisville, KY.

Every sunroom is custom built here in our own manufacturing facility in Louisville, Kentucky. This gives us complete quality control over every step of the manufacturing process insuring that our customers get the highest quality product at the best possible price.

Delivered direct to you 100% ready-to-assemble.

The sunroom is designed for easy on-site assembly and includes all framing, glazing

panels, screen panels, vents, doors and hardware to assemble the kit. All you need are a few simple tools and some local materials such as wood for headers, flashing, wall attachment fasteners and caulk and you're ready to go.

Full 10 year limited warranty!

Every SunPorch and ShadePorch is built using the highest quality materials and manufacturing processes. That's why we stand behind every sunroom with a full 10 year limited warranty.

We use precision saws accurate to 1.1000th of an inch to assure that every cut is clean, precise and guaranteed to deliver flawless fit.

Every part is precision made for a perfect fit.

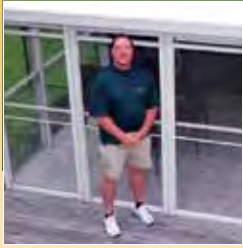

All frame members are factory pre-cut for a tight fit and have score lines to help align and square.

Pre-drilled window/frame holes at the factory, insure precise, easy alignment and simple assembly.

All parts are clearly labeled and keyed to the assembly manual for easy identification and assembly.

“Every SunPorch or ShadePorch Comes Complete With These Quality Components as Standard Features!”

Easy-Slide Windows In Every Bay!

Fully convertible, both top and bottom slide easily to open or close.

BetterVue Screens

BetterVue® fiberglass screens offer more visibility, more natural light and increase in air circulation. Plus they are durable, exceeding industry standards for tensile & bursting strength.

Roof Vents

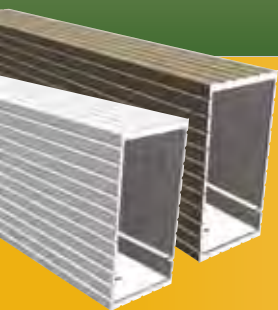

The SunPorch includes a 1' square screened roof vent for each 3' bay allowing hot air to rise and ventilate to the outside while promoting the circulation of cool, fresh air in the SunPorch.

Heavy Duty Storm Door

Each SunPorch comes with one door located in any bay of your choice, hinged right or left, & swings outward.

Commercial Grade Aluminum Framing

The SunPorch aluminum structure is strong, lightweight & virtually maintenance FREE! The structure easily passes or exceeds industry measure of strength and durability for snow loads, wind loads & even California's rigorous earthquake code. Available in architectural white or bronze finish.

Duraplex Window Glazing

Our Duraplex acrylic Easy-Slide windows are strong, rigid and totally shatter proof! They are better than glass... offering you a crystal clear view & 100% protection from harmful UV rays. Plus they are light weight at just 7 lbs each and are easy to clean with warm water and dish soap.

ShadePorch & SunPorch

Compare models!

The Solid Roof ShadePorch Provides Maximum Shade & Sun Protection.

3" thick insulated, heat reflective roof is...ENERGY STAR® rated!

NEW for 2011!

Beat the heat with ShadePorch!

Enjoy your own cool, shady retreat!

Deflects sun, heat & harmful UV rays!

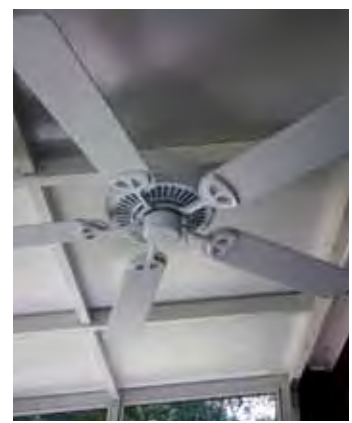

Choose ShadePorch for...

- Solid roof for maximum shade and sun protection.
- 3" thick, insulated R11 foam core heat reflective roof.
- 6" overhang on all three sides for added protection.
- Keeps you cool in summer and warm in winter.
- Blocks heat and saves energy to keep adjacent rooms cooler.
- Maximum protection from the sun's harmful UV rays.
- Perfect for warmer, hot, sunny climates.
- Ideal for southern & western exposures with excessive sunlight & heat.

The solid roof ShadePorch gives you 100% shade and protection from the hot sun.

You can easily add a ceiling fan to make the space even cooler!

The Translucent Roof SunPorch Allows Natural Day Light To Flow In.

The twin wall polycarbonate roof is lightweight...& strong!

Translucent Roof SunPorch

100% Natural Day Lighting!

Choose SunPorch for...

- Translucent, light emitting roof maximizes natural day lighting.
- Provides a beautiful diffused light.
- Helps keep adjoining rooms brighter.
- Twin wall polycarbonate roof is 200 times stronger than glass with just 1/8th the weight.
- Seamless 3' wide sections up to 15' long
- A passive solar collector that can help insulate & heat your home during winter months.
- Perfect for cooler climates with short summers and long winters.
- Ideal for shady areas with little direct sunlight.

The translucent roof SunPorch provides maximum natural day light in!

SunPorch Skylight shades give you greater control over the climate in your SunPorch.

ShadePorchs' 3" Thick, Insulated, Heat-Reflective Roof Protects You From The Hot Sun!

Super Strong!

Lightweight!

Strong Enough To Withstand the Heaviest Snow Loads... Yet Light Enough to Lift With...Just One Hand!

Solid, Insulated & Heat Reflective!

The ShadePorch roof is designed to provide maximum shade & protection from the hot summer sun! The roof is 3" thick with an R11 super insulating foam core and an outer skin of highly heat reflective aluminum. Together they provide ENERGY STAR® rated protection from the heat of the sun. A 6"

overhang on all three sides provides additional protection from the sun.

Great Strength & Durability!

The ShadePorch roof was designed to be strong...very strong! Capable of withstanding heavy, up to 70lbs per square foot snow loads and 90mph wind loads. The ShadePorch roof meets or exceeds the most stringent building codes.

Lightweight & Easy to Handle.

Along with super strength, the ShadePorch roof is also incredibly lightweight. Weighing in at just 11lb. per square foot, the 2' wide & up to 15' long panels are easy for a single person to lift. That makes them remarkably easy to handle & install.

Completely Weatherproof!

The ShadePorch roof uses an interlocking design to provide complete weather protection! The individual panels tightly interlock making the roof leak proof & secure in any kind of weather. They have a high quality enamel finish that is permanently baked onto the metal for a lifetime of maintenance free service.

The ShadePorch roof is 3" thick with insulated R11 foam core and a heat-reflective outer layer.

Roof Panels Snap Together Easy As 1, 2, 3!

ShadePorch roof panels are 2' wide and up to 15' long & go easily into place. Each tongue & groove panel then snaps easily together requiring no special tools or bonding materials. Once snapped together the panels form a truly weatherproof roof surface.

SunPorchs' Twin Wall Polycarbonate Roof Glazing is 200 Times Stronger Than Glass!

Supports Heavy Loads!

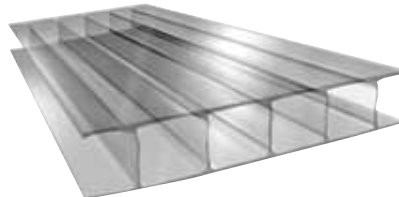

VIDEO

Watch A Branch Fall!
www.sunporch.com

Impact Resistant!

Our Polycarbonate roof is 200 times stronger and 1/8th the weight of glass! So you'll never have to worry about wind, rain, snow, hail or fallen branches! Even thermal extremes won't effect your SunPorch roof.

Our roof is strong, light weight, energy efficient, durable and long lasting.

Only 1/8th the weight of glass!

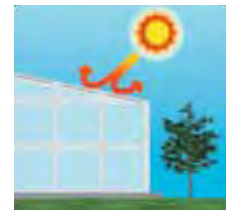

Along with its' super strength our roof glazing is also incredibly light weight. That's why our seamless leak resistant, 3' wide sections up to 15' long are easy to lift...easy to install...and keep the SunPorch light enough to mount on your existing deck or patio.

Lets natural light flow into your home.

The SunPorch's translucent, light emitting roof is designed to maximize the flow of 100% natural daylight into the SunPorch. This also serves to keep adjoining rooms brighter.

Beautiful light & 100% UV protection.

Our translucent roof panels provide a beautiful diffused light without annoying glare or uncomfortable hot spots. At the same time the roof glazing provides you with 100% protection from the suns harmful UV rays.

Blocks 100% of the suns harmful UV rays.

Guaranteed for 10 years!

The Polycarbonate twin wall roof is designed to withstand prolonged exposure to sun, rain, wind and snow. It is covered by a 10 year limited warranty against yellowing and discoloration.

“The roof glazing just wouldn't break...no matter how hard I tried!”

Mounts on Your Existing Deck or Patio!

By combining great structural strength in a super lightweight & shatter resistant design the sunroom can be easily mounted on an existing deck or patio.

Mounts On Your Deck Or Patio With...No Site Prep! No Permits! No Taxes!

A complete ready-to-assemble kit.

Our sunrooms are delivered as a complete kit including roof, walls, windows, screens and a door. It is easy to assemble and can be completed in as little as a single weekend.

A little help from family & friends.

Many of our customers build their own sunroom and find it to be very rewarding. It's even more rewarding when you invite family & friends to pitch in and lend a helping hand.

SunPorch is the proud recipient of the Handyman Club of America's approval and recommendation.

Mounts on your existing deck or patio with...No Site Prep!

By combining great strength in a super light weight design, the sunroom can be easily mounted on an existing deck or patio. No foundations to dig or footings to lay. No site prep costs...period!

No Permits & No Taxes!

Because our sunrooms are is designated as recreational outdoor space you'll need fewer if any building permits and approvals. Plus...they can frequently avoid added property taxes completely!

"The SunPorch is a beautiful addition to my home! What a difference!"

"My old sunroom was dark, dingy and cut off all the natural light in adjacent rooms on that side of the house. Just look at the difference the SunPorch has made. It is a bright, airy and beautiful addition to my home that I plan to enjoy for many years to come!"

John V., New Jersey

Before

After

Assembly is easy as 1, 2, 3!

Here's what our owners have to say about assembly...

Assemble & Attach Frame to House.

1

Next, Install the Translucent Roof (or Solid Roof for ShadePorch).

2

Finish by Installing the Easy-Slide Windows.

3

"I've never seen such a well thought out and documented home improvement product than SunPorch. I'm very impressed. Every hole lined up and every piece fit precisely. The instructions are well written and easy to understand."

— Mr. S.R., Oklahoma

"I would never have thought this would have gone together so easily...I felt like a kid with an erector set. One week — 4 hours every morning — before the sun came up and it was finished."

— Mr. L.S., New Hampshire

"The installation manual was very easy to understand and follow. I am completely satisfied with the quality of my SunPorch. I had three friends who are contractors look at it and all have been very impressed with its quality."

— Mr. S.B.D., Rhode Island

"I am very impressed with the design and engineering of the SunPorch. Everything fit well and created a strong and attractive structure. I'm happy to report that we had our first snow storms in the winter and the SunPorch was water tight.

A most impressive product. I'm already recommending the SunPorch to family and friends."

— Ms. W.C., California

The Assembly Manual is detailed and easy to use with clear and complete illustrations and instructions.

SunPorch Structures

SunPorch Carries the Better Business Bureau's Highest A+ Rating!

SunPorch is very proud to have received the Connecticut Better Business Bureau's highest A+ rating. In

addition, we were the recipient of the prestigious Torch Award for Marketplace Excellence.

5 reasons why we sell factory-direct...Only!

We build every SunPorch and ShadePorch ourselves and sell direct from our factory in Louisville, KY...ONLY! No stores, no middlemen and no hidden cost! That's how we are able to offer the best value in the sunroom industry, including...

- 1 Affordable Factory-Direct Prices!**
By eliminating costly middlemen and expensive store leases we're able to keep our costs down and pass these savings, and outstanding value, right on to you.
- 2 Up Front, Honest Pricing...Online & In-Print!**
Unlike dealers whose prices seem to change with the whims of each sales person...our prices are honest and right up front...online and in our printed Price List. Nothing hidden & no gimmicks!
- 3 No Hassles From High Pressure Salesmen!**
By ordering from the comfort of your own home you'll completely avoid the kind of high pressure, commission driven salesmen you find in local dealers.
- 4 We're Dedicated To Sunrooms & Shaderooms...ONLY!**
We stick to what we know best...sunrooms & shaderooms! That's another reason we're able to offer you a better product at a better price than any of our competitors.
- 5 You Can Count on Us!**
After 37 years and over 25,000 satisfied customers, we're here to stay! Our customer service is consistently outstanding. You can count on it!
